

In the short time that instant traffic and weather have been available I have used it alot. The local stations only offer that info at best every 10 minutes so if you miss it, you're out of luck. Often, a decision needs to be made, for example, as to which route to take with only a minute to decide... not 10 minutes to sit and wait. Please don't take this wonderful source of information away. Please reject the NAB's petition 04-160.
